

OFFICE OF THE DD/I

DATE: 15 Mar 67

TO: Mr. Godfrey, D/OCI

FROM: 25X1A

SUBJECT: OCI Comments on IG Report

REMARKS:

1. Thank you for your comments.
2. I appreciate your concern over the possible implications for OCI of the wording concerning DCID 1/2. My intent was not to "recommend in favorable terms" that the committee consider the proposal to define geographic areas which do not warrant intelligence collection. Rather, it was to note that, in its deliberations, the committee should consider the merit of the various things that the IG survey urged, either in the language of the original recommendations or in its discussions of the DCIDs.
3. I have no strong objection to deleting the offending words from the restatement and comments prepared for Jack, but I'm sure this won't in the least deter the committee from investigations in that direction if it is so inclined.
4. I should think that the best protection you have from the kind of thing you discuss (and with which I'm in complete sympathy) is the fact that Jack will chair the committee. If you wish, I'll be happy to recommend that D/OCI chair the working subcommittee on DCID 1/2.
